Fax: +44(0)1325 466643

**IMPORTANT:** Please quote your Advance Purchase Code and Serial Number.

The application will restart and you are now ready to use your product.

The screenshot displays the IMO-Vega database interface. At the top left, the logo reads 'IMO - Vega' with 'THE DATABASE' underneath. A circular badge indicates 'VERSION 24.1'. To the right is a search bar with a green 'Search' button and links for 'Advanced search' and 'Search tips'. Further right are icons for 'Feedback' and 'User manual'. A left-hand navigation menu lists various categories: Contents, Documents in IMO-Vega, SOLAS, MARPOL, Load Lines, Tonnage (TMC) 1969, STCW Convention and Code, ILO Conventions & Recommendations, Other Conventions, Mandatory Codes, Other Codes, Resolutions, Other Instruments, Circulars, IMO requirements by enter into force date, Ratification Status, and Flag Administration Information. The main content area features a white box titled 'IMO-Vega Latest updates - Issued May 2020'. Inside this box, it states: 'The database contains updated and consolidated IMO documents including: - Assembly committee 31<sup>st</sup> session, MEPC committee 74<sup>th</sup> session and MSC committee 101<sup>st</sup> session - and circulars up until and including April 2020'. It then mentions that in this release, the 'HSSC Survey Guidelines 2019', the 'PSC Procedure 2019' (both under Other Instruments) and the '2019 Non-exhaustive list of obligations under the Ill Code (under Mandatory Codes / IMO Instruments Implementation Code (Ill Code)) were renewed. Likewise, the GMDSS Manual was renewed. In this release, all previous versions of requirements of conventions and mandatory codes are specified with text with application dates from/to in the index (title) field, and if they are no more valid, starting with a "replaced". This is also described in the user manual paragraph 3.2 (page 11/12). Forthcoming requirements to the mandatory conventions and codes are highlighted in green. Ref. Table of Contents > IMO requirements by enter into force date > IMO requirements recently in force or expected into force in the future. See new documents in this version'. At the bottom of the interface, the IMO International Maritime Organization logo and the DNV-GL logo are visible.
